About us

DRENCH SHOWERS is a British Manufacturer of Shower Doors & Enclosures distinguished by the wide selection of colours, finishes and glass options that match the latest market trends.

The Bathroom is no longer the place where you just wash your hair. For years and years, bathroom design was overlooked as it did not seem to be a picturable room.

Nowadays, social media and sites like Instagram or Pinterest have changed that trend and inspired people to think of their bathroom as an area to express personality through creative design.

At DRENCH we understand where trends are moving and we are here, not to follow but to lead you to our true design expression. Innovation along with meticulous design and quality manufacture have resulted in this superior range of products.

Whether standard or made to measure products, DRENCH puts forward that many options, you can be confident in thinking your shower enclosure is unique and unrepeated.

Combinations and possibilities are endless.

The only limitation is your imagination.

***Black is still in vogue
but now DRENCH can lead you
to your true design expression.***

Our drivers of sustained values;

Innovation

We aim for innovation on our products and processes. We pursue differentiation and creating a leap in value for both the customer and the company.

Quality

We ensure the best components and materials are used on our products to guarantee a correct performance and long durability. Meeting and exceeding all requirements, standards and specifications is our ultimate goal.

Integrity

We say what we mean and we mean what we say. We commit to treat everyone equitably and communicate openly and honestly.

Customer Service

We dedicate our efforts to uncovering and meeting customer needs, delivering excellent service and incorporating customer feedback into product design and other business decisions.

Made in the UK

DRENCH products are manufactured on our premises in Hursley, Winchester.

DRENCH manufacturing technique has a patent granted GB2562114 and named Hygienic Decorative Bathroom Partition in accordance with Patents Act 1977.

All DRENCH products have been carefully designed using the best quality raw materials. Sourced locally and tested by our team in accordance with British Standards BS EN 14428:2015 as per declaration of performance included in this catalogue.

UK CA

Since the UK left the EU, product marking rules changed and the UKCA (UK Conformity Assessed) came to force.

DRENCH shower panels and enclosures conform to British Standards requirements of the mandate given under **EU Construction Product Directive (EU) 305/2011**.

Testing was carried out under scope of System 4 which allows self-declaration of conformity for UKCA.

UK/CE Mark are included on both packaging and assembly instructions in all DRENCH products as well as available to be downloaded from our website.

Product Features

About Our Glass

DRENCH products are manufactured using the highest quality of Safety Glass, Toughened in compliance with **BS EN12150-1-2015**.

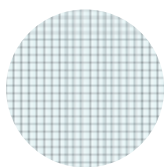

All standard products shown in this brochure are manufactured using 8 mm Toughened Clear/Float glass. **Cross Fluted, Fluted, Frosted and Grey Tinted glass** are also available with an extra surcharge.

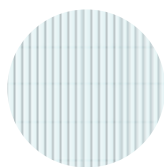

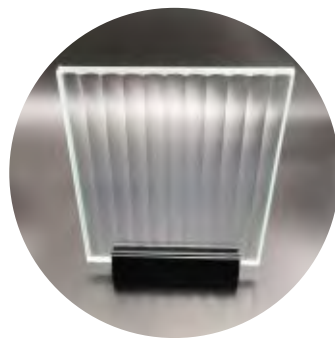

DRENCH products are treated with a special coating, known as Enduroshield, applied on the internal face of the shower to allow for easy clean.

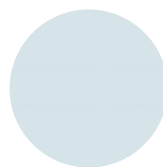

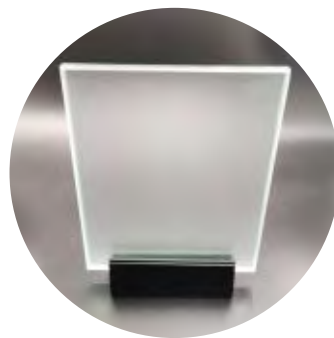

Enduroshield for Glass is an optically clear liquid that is sprayed onto glass and chemically bonds to the surface creating a non-stick barrier resistant to corrosion, etching and staining. However, while cleaning is made easier and less frequent, the need to clean is not eliminated.

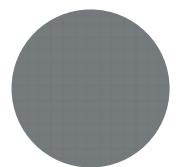

Cross Fluted
8.8 mm TGH
Laminated

Fluted
8.8 mm TGH
Laminated

Frosted
8 mm TGH
Satin Etch

Grey Tinted
8 mm TGH
Smoked glass

Impactful as well as elegant, Cross fluted is a Clear but semi-transparent glass with intersecting vertical and horizontal reeds creating a fine texture made of little concave squares. Glass inside the shower area is completely smooth allowing your screen to be easily cleaned.

Our classic Fluted glass adds the vintage chic look and the visual interest to your Shower area. It improves the privacy by creating subtle shifting of light. Glass inside the shower area is completely smooth allowing your screen to be easily cleaned.

Frosted is Our most opaque glass option. External side of the glass is satin etched to create the frosted effect. The satin etch process creates a permanent decorative texture that is also scratch and fingerprint resistant. Internal side is completely smooth to be easily cleaned.

Smoked grey glass that gives a delicate look to your screen. The grey tint on the glass brings privacy and elegance. Both glass inside and outside the shower area is completely smooth allowing your screen to be easily cleaned.

About Our Metalwork

DRENCH metalwork is made of Aluminium alloy 6060 grade. Aluminium is the perfect material for Shower screens as it can be extruded into complex shapes, it is mechanically strong and does not rust.

All DRENCH profiles have been specifically designed to offer a wide range of products from Wall Fixed panels, Bath Screens and the most complex range of Shower Doors and Enclosures.

DRENCH products are manufactured using different systems depending on the collection:

EDGE System

EDGE system is the technique used for our Semi frameless range of panels. The system is based on a toughened piece of glass attached to the wall using a wall profile and a gasket. System used on **EDGE Collection** Panels.

FOLD System

The FOLD system is based on the use of a full aluminium sheet laser cut and bonded to the glass folding on the edge and creating perfectly smooth corners. System used on **FRAME Collection** Panels.

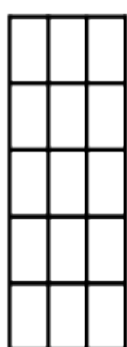

LITE System

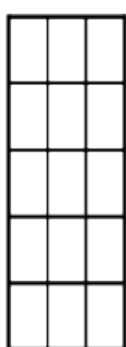

The LITE system is based on a piece of glass fully framed with our own profiles and laser cut pieces of aluminium bonded in the front face of the glass, recreating the chosen pattern. System used on items from **FRAME Lite, DECO, SUZHOU, HEXAGON, BORDER and TOUCHES Collection**.

Product Configurations

DRENCH product portfolio comprises a variety of standard glazing configurations for your shower area.

Starting from the most simple Wall Fixed panel to the most complex Shower Enclosures, all product configurations have been designed following standard dimensions for bathroom products as Baths, shower trays and wetrooms.

DRENCH Product features such as glass options and colours/finishes, are available in all product configurations. However our Collections are not available for all configurations.

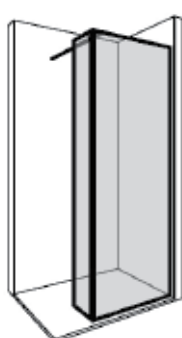

Please follow the drawings and descriptions included below to understand how DRENCH's range of products work along this brochure.

Wall Fixed Panels

Panel is attached to wall using our wall channels and support bar system. DRENCH Wall fixed panels are reversible so can be used both left and right hand wall fixing. Panels are available in different sizes depending on Collection.

Different support bar options for panel combinations are also available.

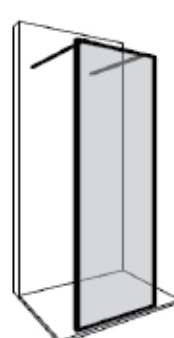

Wall Fixed Panels with Flipper panel

Flipper panel is fixed to the Wall fixed panel using our pivot system.

The pivot mechanism swing is adjustable from 0 de to 180 degree position.

Panels are handed so left or right hand wall fixing must be specified.

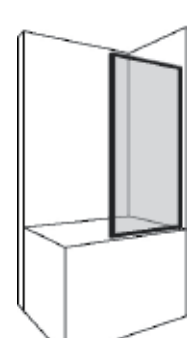

Flipper panel is delivered already assembled to the fixed panel. It cannot be installed retrospectively.

Free Standing panels

Freestanding Panel sits on top of wetroom/shower tray and is fixed to wall with 2 across support bars leaving a 2 entry shower area.

Different panel dimensions are available and Support bars are included on the price.

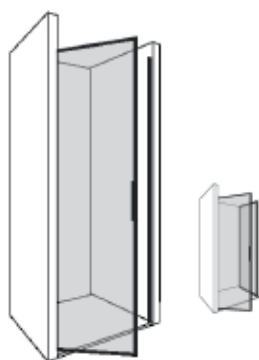

Bath Screens

Bath Screens are available in both Fixed and Pivot version.

Fixed Bath screen are a reduced version of our Wall fixed panels suitable to be installed onto a bath.

Pivot Bath Screens are hinged to the wall and swing 180 degrees. Pivot bath screens are handed.

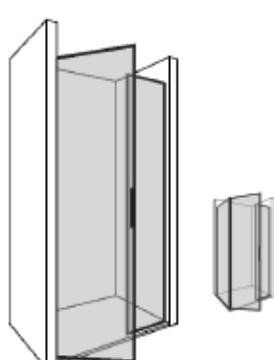

Shower Doors & Enclosures

DRENCH Shower doors are robust and very sophisticated. Door can be Right or Left hand hinge.

The way we identify the handing is the position of the hinge when you look at it from the outside.

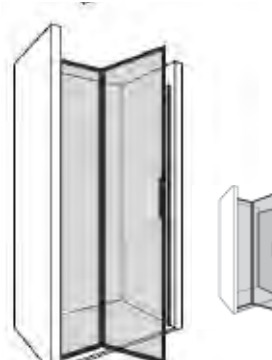

DRENCH
INSPIRE BY DESIGN

Doors with inline & Enclosures

Door is hinged to wall/return panel and closes into the Inline panel. Door can be Right or Left hand hinge.

The way we identify the handing is the position of the hinge when you look at it from the outside.

Doors hinged to inline & Enclosures

Door is hinged to the Inline panel closing into the wall/return panel. Door can be Right or Left hand hinge.

The way we identify the handing is the position of the hinge when you look at it from the outside.

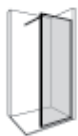

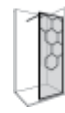

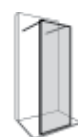

Shower Trays

BASE Collection introduces our range of Slate textured Shower Trays to match and be used with our Shower Panels and enclosures.

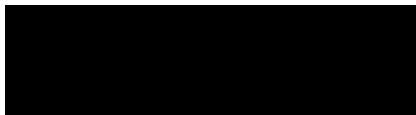

With four colour options and different grating styles, we encourage your mind to be creative.

MATTE Colours

The metalwork is finished using **Architectural Powder Coating** which produces a highly durable surface ordinarily suitable for external use in any weather. For our shower enclosures this means the finish is robust enough, even for the busiest family bathroom, and the colour will always look perfect.

Matt Black
(BK)

*The standard of our bold design.
Black means power & control.
Sophistication & Elegance.*

wonderfully tranquil space,
heavenly ideal for bathrooms.*

RAL 5019

Gey Navy

(GN)

*It is a deep midnight blue.
Sincerity, Intuition and the
higher mind colour.*

RAL 5008

Metallic Finishes

Inspired by the latest taps and brassware trends, DRENCH launched a new range of metallic finishes widening the spectrum of sheens to a new level. Since shiny and polished finishes from the eighties are still in vogue, we believe our brushed metallic range of colours adds the perfect accent to any bathroom design.

Our metallic finishes are achieved through anodising aluminium. Anodising is an electrolytic process that applies an oxide film on aluminium.

This film increases the metal's naturally good corrosion resistance, and protects any polishing, brushing, etching or brightening.

Brushed Brass

(BB)

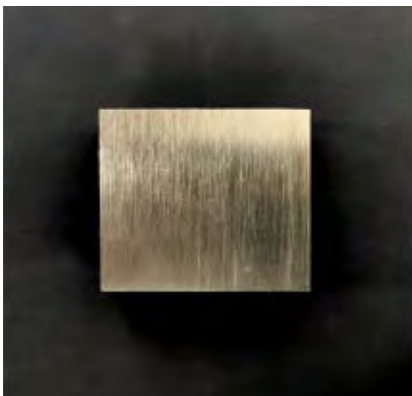

Elegant, timeless and luxurious yellow-coloured finish.

Brushed Steel

(BS)

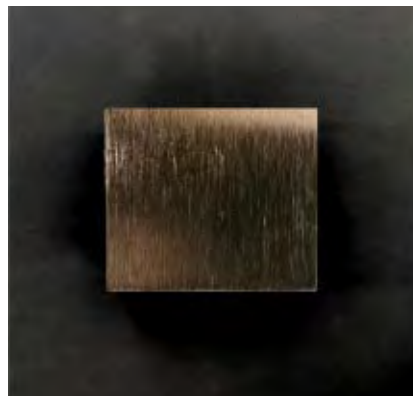

Driven by industrial chic trend, an impactful yet elegant steel look.

Light Bronze

(LB)

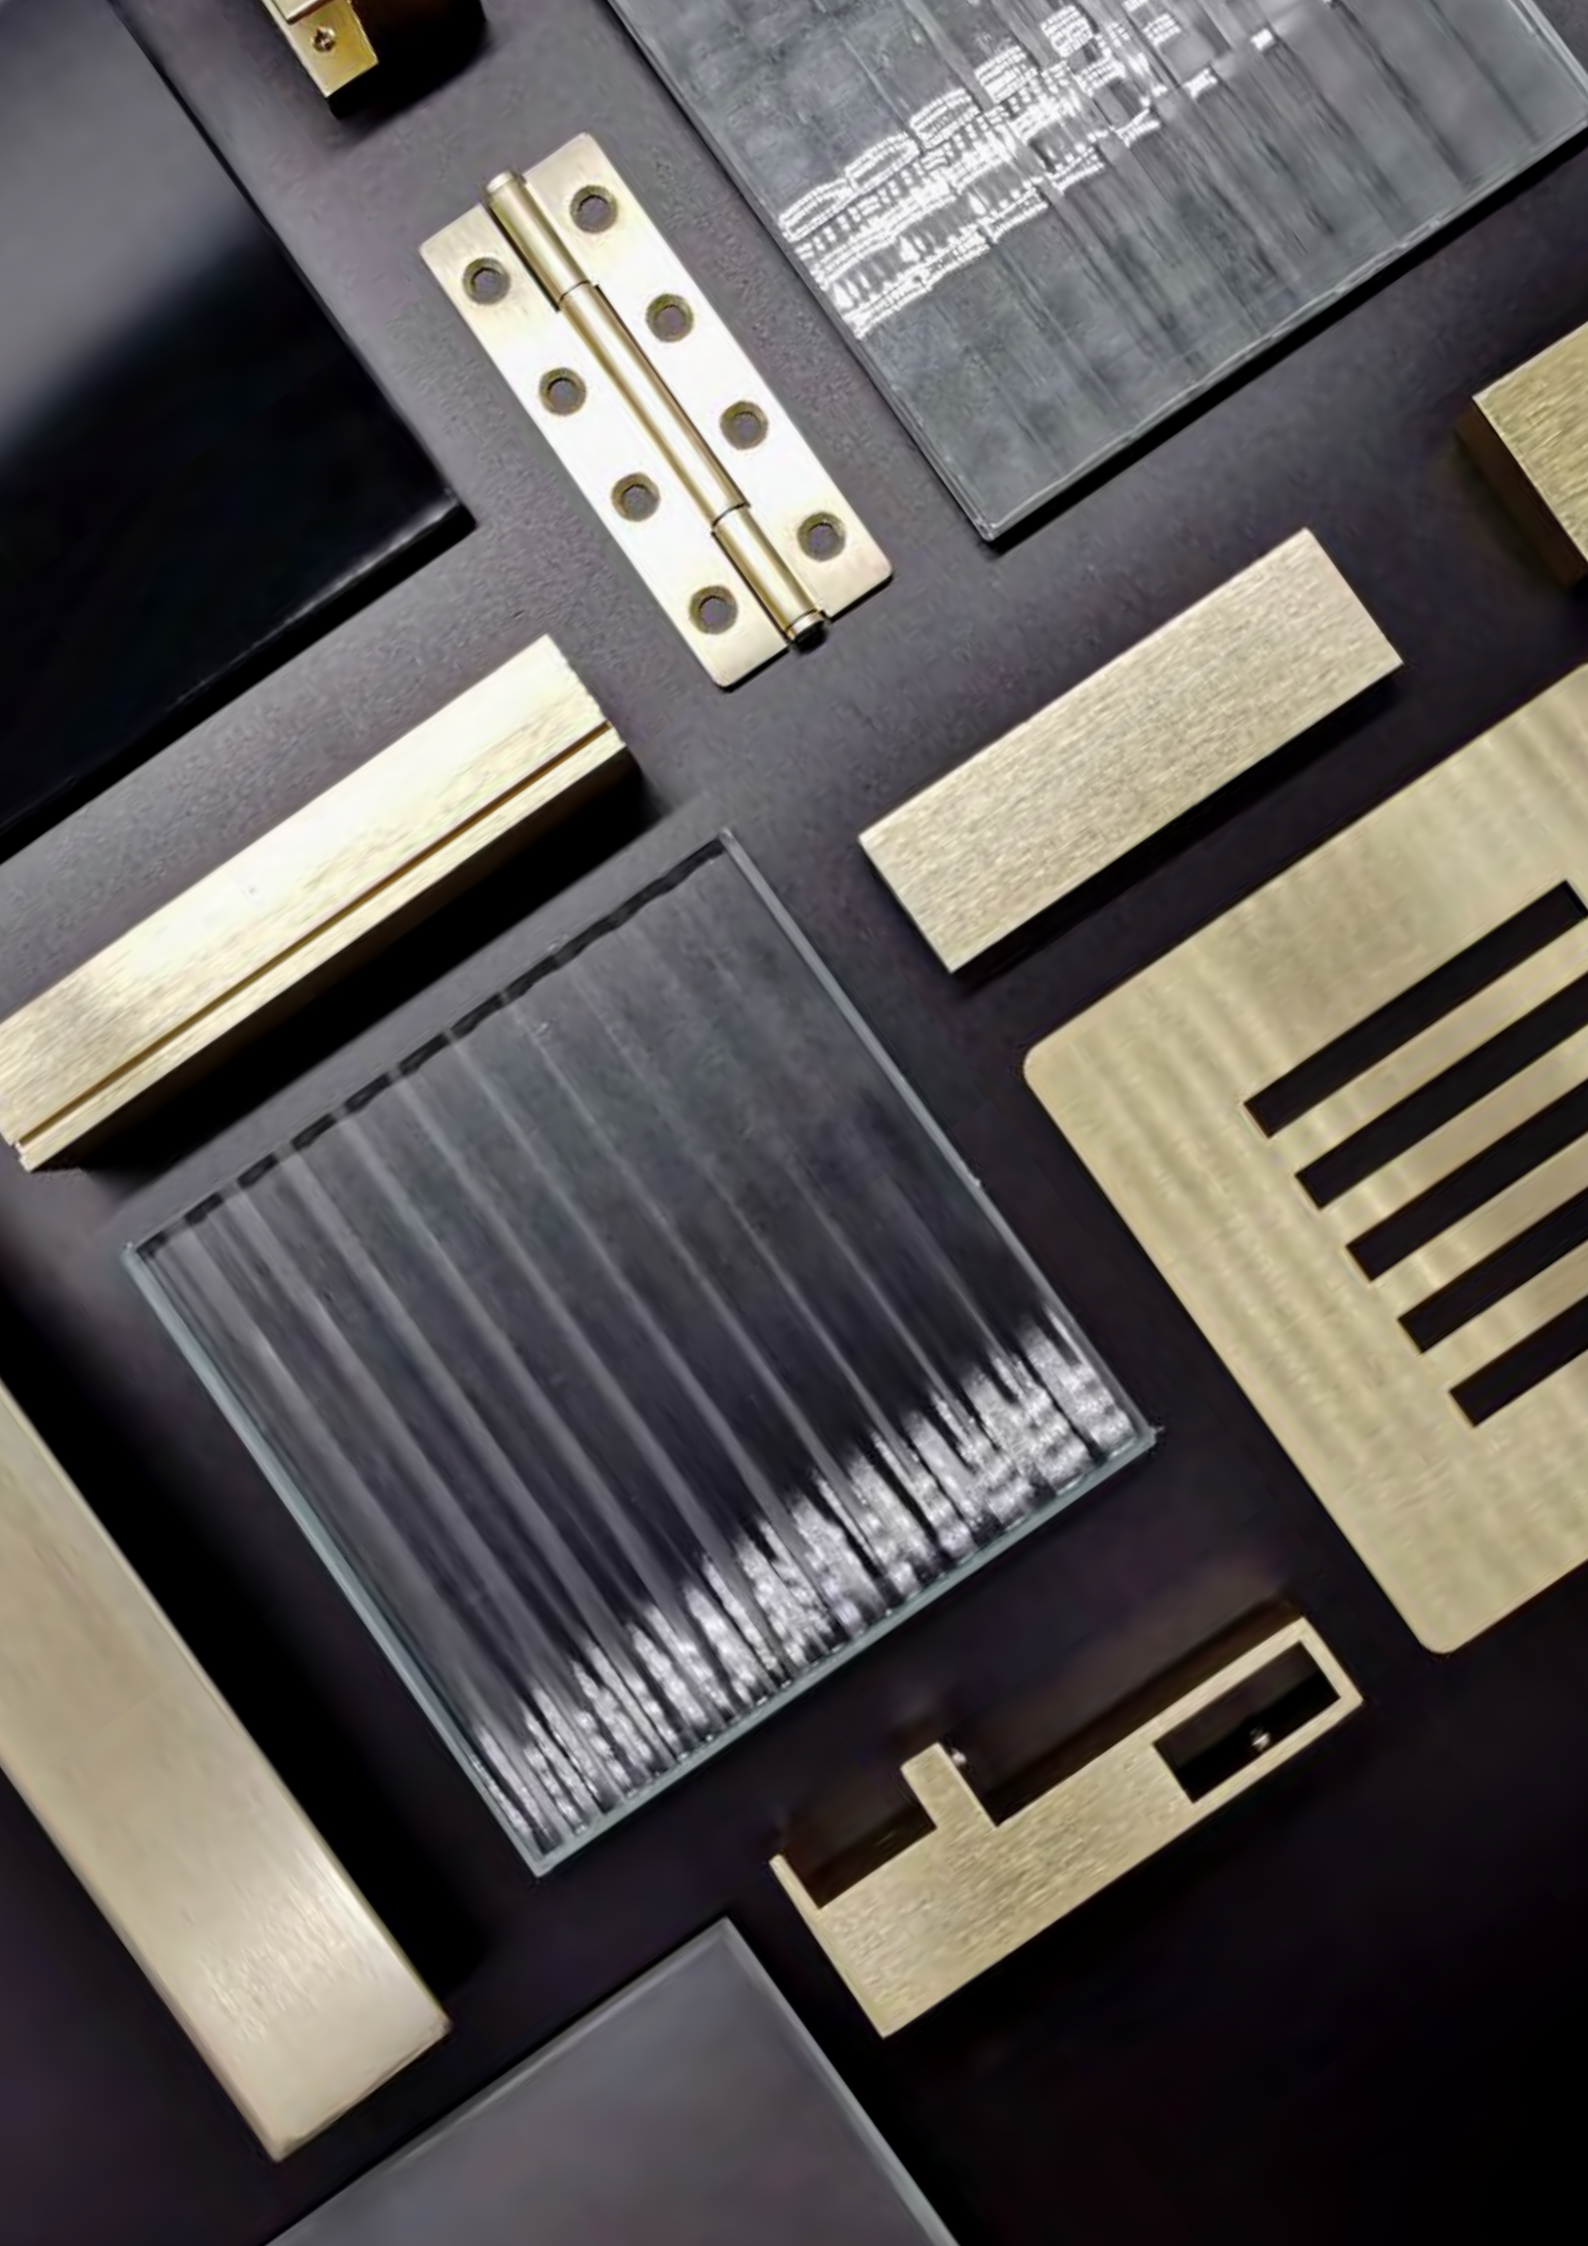

Bronze finish in between copper and brass.

Dark Bronze

(DB)

Evoking oil rubbed bronze finish, warm and sophisticated.

Collection

FRAME Lite Collection

FEATURES:

ALL Product configurations

2100 mm Height

19 mm of Adjustment

12 MATTE Colours & 4 Metallic Finishes

8 mm Toughened Glass

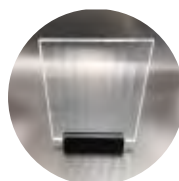

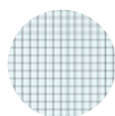

(Fluted, Frosted, Grey Tinted & Clear Glass options)

Easy Clean Coating

Driven by the success of Frame, FRAME Lite was launched based on our popular grid metalwork pattern.

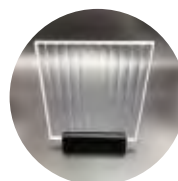

FRAME Lite provides the balance between the industrial style and the simplification of the grid especially in small spaces, using 15 mm aluminum bars width.

FRAME Lite collection is available for all DRENCH ranges including Panels, Bath Screens, Shower Doors & Shower Enclosures.

Bath Screens

FRAME Lite
MATTE Colours

There is really nothing better than a nice long soak in the tub after a long and stressful day.

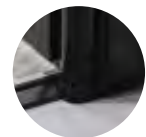

We love the idea we can contribute to make your bathtub look different with our range of Bath Screens.

DRENCH Bath Screens are available in pretty much all collections plus you can choose between 12 MATTE Colour options, 6 Metallic Finishes and our gorgeous glass options like Fluted, Frosted and Grey Tinted Glass.

Fixed Bath Screen
Wall Fixed channel
Included

Fixed Bath screen are a reduced version of our **Wall fixed** panels suitable to be installed onto a bath. This configuration ticks the box for small bathrooms.

Pivot hinged Bath Screen

Pivot Bath Screens are hinged to the wall and swing **180 degrees**. Pivot bath screens are handed so make sure you choose the **Left or Right** hand code when ordering.

There is a 10 mm gap between the bottom profile and the top of the bath to allow the pivot mechanism work. A black rubber seal is supplied with the screen to cover the gap and guarantee watertight conditions.

Bath Screens

There is really nothing better than a nice long soak in the tub after a long and stressful day.

We love the idea we can contribute to make your bathtub look different with our range of Bath Screens.

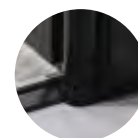

DRENCH Bath Screens are available in pretty much all collections plus you can choose between 12 MATTE Colour options, 6 Metallic Finishes and our gorgeous glass options like Fluted, Frosted and Grey Tinted Glass.

Fixed Bath Screen
Angle Support Included

Fixed Bath screen are a reduced version of our **Wall fixed** panels suitable to be installed onto a bath. This configuration ticks the box for small bathrooms.

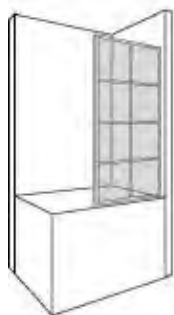

Item includes angle **Support Bar(FXSBNGL)** on the price. Support Bar is installed in parallel to the panel.

Pivot hinged Bath Screen

Pivot Bath Screens are hinged to the wall and swing **180 degrees**. Pivot bath screens are handed so make sure you choose the **Left or Right** hand code when ordering.

There is a 10 mm gap between the bottom profile and the top of the bath to allow the pivot mechanism work. A black rubber seal is supplied with the screen to cover the gap and guarantee watertight conditions.

Return Panels for Shower Door hinged to Inline Enclosures

Shower doors hinged to inline panel may be paired with a range of Return/Side Panels to create shower cubicles.

Return panels must be ordered with the door. If you want to create a Shower Enclosure please follow the steps below:

1. Choose your Door hinged to Inline size, handing, colour and glass option and keep the code.

2. Choose the Return size, check the hand required and keep the code.

****Our handing is based on the wall fixing position when you look at it from the outside.****

3. Specify both codes on your order and DRENCH will make sure the correct Shower cubicle is delivered including wall fixings, handle and Support bars required.

Support Bars for Panel Combinations

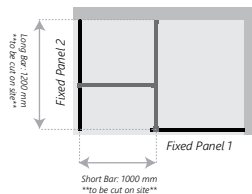

DRENCH Shower panels can be used individually or combined to recreate a walk-in shower space. When Shower panels are ordered individually support bars required for installation are included in the price and supplied by DRENCH.

When Shower Panels are combined, possibilities are endless hence we have designed a range of accessories suitable for any design or configuration.

All support bars and fixings are supplied in same colour/finish as the Shower panel.

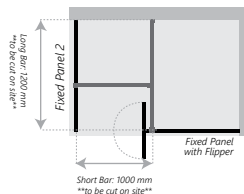

Item Code	Item Description	Specification	Retail Price Metallic Finishes (Exc VAT)
FXSBNGL..	90° Angle Support Bar (3 components, not pre-assembled) 450 mm length, 30 x 10 mm bar. **Not suitable for panels wider than 1000 mm**	 	116 €
FXSBTBAR..	T Shape Support bar (4 components, not pre-assembled) 2x 30 x 10 mm bars. Long bar 1200 mm + Short bar at 1000 mm **Suitable for Shower Panels combinations**	 	165 €
PR758..	Corner Channel for L Shape configurations Wall Fixings included. 2100 mm standard length	 	150 €

Shower Panels Combinations Sample Layouts

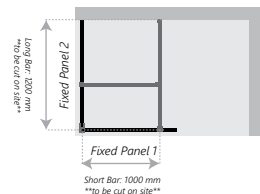

For Walk-In showers with Wall Fixed panels, **T Shape support bar (FXSBT-BAR..)** is recommended for installation purposes.

Please note the TBAR includes 2 bars at 1200 and 1000 mm. These bars can be trimmed on site to fit most of standard walk in shower dimensions.

For Walk-In showers with Wall Fixed panels and Fixed Panel with Flipper, **T Shape support bar (FXSBTBAR..)** is recommended for installation purposes.

Please note the TBAR includes 2 bars at 1200 and 1000 mm. These bars can be trimmed on site to fit most of standard walk in shower dimensions.

For L-Shape configurations with Wall Fixed panels, **Corner channel (PR758)** and extra **T Shape support bar (FXSBTBAR..)** is recommended for installation purposes.

Please note the TBAR includes 2 bars at 1200 and 1000 mm. These bars can be trimmed on site to fit most of standard walk in shower dimensions.

Wall Fixed Panels

Panel is attached to the Wall using Wall Channel and Support Bar.

Support Bars for Panel Combinations

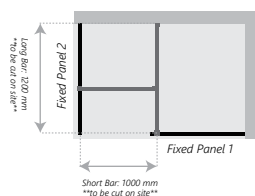

DRENCH Shower panels can be used individually or combined to recreate a walk-in shower space. When Shower panels are ordered individually support bars required for installation are included in the price and supplied by DRENCH.

When Shower Panels are combined, possibilities are endless hence we have designed a range of accessories suitable for any design or configuration.

All support bars and fixings are supplied in same colour/finish as the Shower panel.

Item Code	Item Description	Specification	Retail Price Metallic Finishes (Exc VAT)
FXSBTBAR..	T Shape Support bar (4 components, not pre-assembled) 2x 30 x 10 mm bars. Long bar 1200 mm + Short bar at 1000 mm **Suitable for Shower Panels combinations**	 	280 €
PR758..	Corner Channel for L Shape configurations Wall Fixings included. 2100 mm standard length	 	249 €

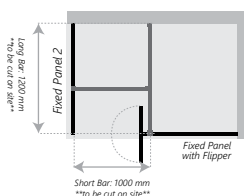

Shower Panels Combinations Sample Layouts

For Walk-In showers with Wall Fixed panels, **T Shape support bar (FXSBT-BAR..)** is recommended for installation purposes.

Please note the TBAR includes 2 bars at 1200 and 1000 mm.

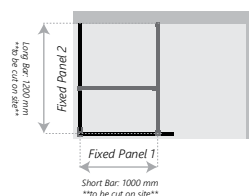

These bars can be trimmed on site to fit most of standard walk in shower dimensions.

For Walk-In showers with Wall Fixed panels and Fixed Panel with Flipper, **T Shape support bar (FXSBTBAR..)** is recommended for installation purposes.

Please note the TBAR includes 2 bars at 1200 and 1000 mm.

These bars can be trimmed on site to fit most of standard walk in shower dimensions.

For L-Shape configurations with Wall Fixed panels, **Corner channel (PR758)** and extra **T Shape support bar (FXSBTBAR..)** is recommended for installation purposes.

Please note the TBAR includes 2 bars at 1200 and 1000 mm.

These bars can be trimmed on site to fit most of standard walk in shower dimensions.

Bath Screens

SUZHOU
MATTE Colours

There is really nothing better than a nice long soak in the tub after a long and stressful day.

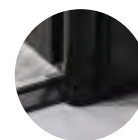

We love the idea we can contribute to make your bathtub look different with our range of Bath Screens.

DRENCH Bath Screens are available in pretty much all collections plus you can choose between 12 MATTE Colour options, 6 Metallic Finishes and our gorgeous glass options like Fluted, Frosted and Grey Tinted Glass.

Fixed Bath Screen
Wall Fixed channel
Included

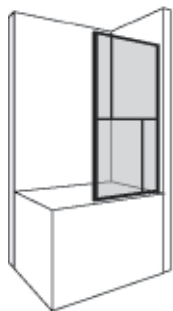

Fixed Bath screen are a reduced version of our **Wall fixed** panels suitable to be installed onto a bath. This configuration ticks the box for small bathrooms.

**Pivot hinged
Bath Screen**

Pivot Bath Screens are hinged to the wall and swing **180 degrees**. Pivot bath screens are handed so make sure you choose the **Left or Right** hand code when ordering.

There is a 10 mm gap between the bottom profile and the top of the bath to allow the pivot mechanism work. A black rubber seal is supplied with the screen to cover the gap and guarantee watertight conditions.

Return Panels for Shower Doors Enclosures

Shower doors may be paired with a range of Return/Side Panels to create Shower Cubicles. Return panels must be ordered with the door.
If you want to create a Shower Enclosure please follow the steps below:

1. Choose your Door size, handing, colour and glass option and keep the code.
2. Choose the Return size check the hand required and keep the code. Our handing is based on the wall fixing position when you look at it from the outside.
3. Specify both codes on your order and DRENCH will make sure the correct Shower cubicle is delivered including wall fixings, handle and Support bars required.

Support Bars for Panel Combinations

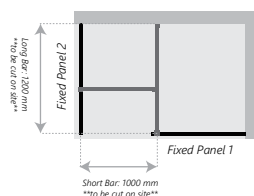

DRENCH Shower panels can be used individually or combined to recreate a walk-in shower space. When Shower panels are ordered individually support bars required for installation are included in the price and supplied by DRENCH.

When Shower Panels are combined, possibilities are endless hence we have designed a range of accessories suitable for any design or configuration.

All support bars and fixings are supplied in same colour/finish as the Shower panel.

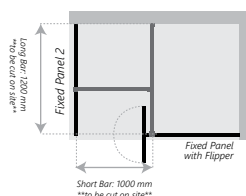

Item Code	Item Description	Specification	Retail Price Metallic Finishes (Exc VAT)

Support Bars for Panel Combinations

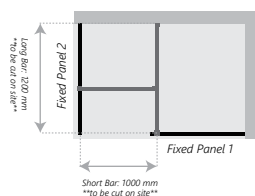

DRENCH Shower panels can be used individually or combined to recreate a walk-in shower space. When Shower panels are ordered individually support bars required for installation are included in the price and supplied by DRENCH.

When Shower Panels are combined, possibilities are endless hence we have designed a range of accessories suitable for any design or configuration.

All support bars and fixings are supplied in same colour/finish as the Shower panel.

Item Code	Item Description	Specification	Retail Price Metallic Finishes (Exc VAT)

Return Panels for Shower Doors Enclosures

Shower doors may be paired with a range of Return/Side Panels to create Shower Cubicles. Return panels must be ordered with the door.

If you want to create a Shower Enclosure please follow the steps below:

1. Choose your Door size, handing, colour and glass option and keep the code.

2. Choose the Return size check the hand required and keep the code. Our handing is based on the wall fixing position when you look at it from the outside.

3. Specify both codes on your order and DRENCH will make sure the correct Shower cubicle is delivered including wall fixings, handle and Support bars required.

Return Panels for Shower Door with Inline Enclosures

Shower doors with inline panel may be paired with a range of Return/Side Panels to create shower cubicles.

Return panels must be ordered with the door. If you want to create a Shower Enclosure please follow the steps below:

1. Choose your Door with Inline size, handing, colour and glass option and keep the code.

2. Choose the Return size, check the hand required and keep the code.

****Our handing is based on the wall fixing position when you look at it from the outside.****

3. Specify both codes on your order and DRENCH will make sure the correct Shower cubicle is delivered including wall fixings, handle and Support bars required.

Return Panels for Shower Door with Inline Enclosures

Shower doors with inline panel may be paired with a range of Return/Side Panels to create shower cubicles. **Return panels must be ordered with the door.** If you want to create a Shower Enclosure please follow the steps below:

1. Choose your Door with Inline size, handing, colour and glass option and keep the code.

2. Choose the Return size, check the hand required and keep the code.

****Our handing is based on the wall fixing position when you look at it from the outside.****

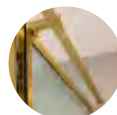

3. Specify both codes on your order and DRENCH will make sure the correct Shower cubicle is delivered including wall fixings, handle and Support bars required.

BASE

SHOWER TRAY COLLECTION

FEATURES:

Non Slip Slate finish Shower Trays
4 Colours Available
McAlpine Waste included on Price
Stainless Steel Grate Included
Bespoke Grate options
Bespoke sizes are available!

Exclusively designed for DRENCH Showers by one of the most reputed shower tray manufacturers in the European Bathroom Industry. BASE collection presents our range of slate textured shower trays to match and be used along with our Shower Panels and Enclosures.

The Shower Trays main component is polyurethane resin. This is a material of high quality, resistance, durability and elasticity.

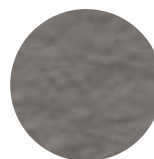

Its impact resistance and its resistance to bending, make the tray durable and resistant to breakage.

Product Configurations Available

**Easy to customise**

BASE Shower Trays can be cut along both the length and width. They can be cut up to three times to adapt to spaces such as columns or projections. Cutting tools like jig saws or angle grinders with diamond blades are suitable for the job.

**Bacterial Resistant**

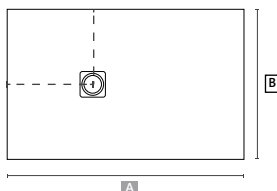

The coating technology used during manufacturing gives unique qualities which help the surface with fungicidal, antibacterial and hydrophobic properties. As a result, the shower trays are not only easy cleanable, but also actively help to keep surfaces decontaminated.

**Easy to Install**

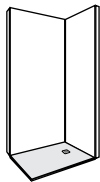

BASE Shower trays can be installed flat to tiles, on top of flooring or even using a raising up. Shower tray thickness of 25 mm contributes to an easy installation plus offers versatility of suitable scenarios.

**Non-Slip Surface**

BASE Shower Trays have a matte, non-slip surface which is given by the texture and material used. Effectively preventing slip hazards.

The waste position vary depending on the Shower tray dimensions.
Please follow the drawing and dimensions specified on "Drain position" on previous page to check the position of your waste.

Waste position cannot be changed however Shower trays can be cut.
For Shower Tray BESPOKE CUTTING please add BASCUT +118.00 € to prices above.
For any further enquiry, please contact us sales@drenchshowers.co.uk

Made to measure

DRENCH was born as a bespoke manufacturer.

From the most simplistic change in dimensions to the most complex shower enclosure we are happy to help.

Our manufacturing facilities in the UK give us the possibility to offer a full made to measure service in a timely and quality manner.

Possibilities are endless.

Options below aimed to inspire your design as well as showing DRENCH's capabilities.

Please collect as much detail as possible and contact us. DRENCH will always issue a bespoke quote and drawing for the items required to be confirmed or modify afterwards.

Your specific needs are our ultimate goal.

When dimensions or product configurations in this catalogue do not satisfy your requirements, please contact us on sales@drenchshowers.co.uk

Intermediate Dimensions

All DRENCH items can be made to measure when requirements are out of standard dimensions and adjustments.

For intermediate dimensions you can use 2 different rules to gage the bespoke price as long as height is standard (2100 mm): The rule of **Next size up** applies for intermediate widths when there is a next standard size up available. For example for a Fixed panel 970 mm width you can use Standard price of 1000 mm.

For different splits between Door and Inline for both Shower Door with Inline and Shower door hinged to Inline please **apply 15%** on top of standard price shown. For example a Shower Door with Inline 1200 mm is required but split must be 600 mm Door + 600 mm Inline panel.

When the above rules are not applicable please contact us.

Floor to Ceiling

All DRENCH products can be manufactured to be floor to ceiling if specified on the order. We require distance between surfaces and we will supply enough adjustment for installation purposes.

DRENCH Standard height is 2100 mm and standard items are NOT considered floor to ceiling hence support bars are supplied. For heights between 2100 mm and 1900 mm Standard prices are applicable.

For higher or lower height requirements as well as specific floor to ceiling needs, please contact us for a bespoke price.

Bespoke Colours & Finishes

Full Bespoke Service

Colour matching

DRENCH is still the expert in colour matching.

MATTE Colours are achieved with Architectural powder coating but our Metallic finishes are through anodising techniques.

DRENCH guarantees a 100% match in all RAL Classic colours. RAL Classic colours are identified with a four digit code and it can be found in most paint and coating suppliers specifications around the world. We reserve the right to decline specifications and orders in other RAL cards as RAL Design or RAL Effect when its match accuracy is doubtful or impossible.

When RAL colour cannot be found or a particular metallic finish is required, contact us supplying as many details as possible of the colour or finish you are looking to achieve.

When you have your own idea

With DRENCH products the only limitation is your imagination.

From the most simplistic change in dimensions to the most complex shower enclosure we are happy to help. Our manufacturing facilities in the UK give us the possibility to offer a full made to measure service in a timely and quality manner.

We work with a recommended network of installers around the countries where DRENCH products are distributed that can assist on survey and installation.

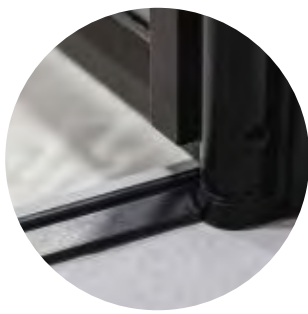

Please contact us on sales@drenchshowers.co.uk

Accessories & Parts

Shower Door Seals & Thresholds

All DRENCH items include the required seal and components (threshold bit) to guarantee a watertight installation.

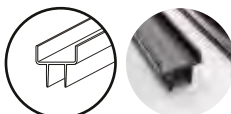

It is important to follow DRENCH assembly instructions to make sure both seal and threshold work properly.

Sometimes components get damaged or lost during the installation so both Seals and Threshold bits are available to be purchased separately.

Please contact us if any doubt; sales@drenchshowers.co.uk

Seals for Bath Screens, Flipper Panels & Shower Doors

Item Code	Description	Specification	Retail Price MATTE Colours (Exc VAT)	Retail Price Metallic Finishes (Exc VAT)

SEALDOR	Rubber Seal for Door (Single or paired with Inline panel) **PLEASE SPECIFY VISIBLE GLASS BEFORE ORDERING**		26 €	26 €

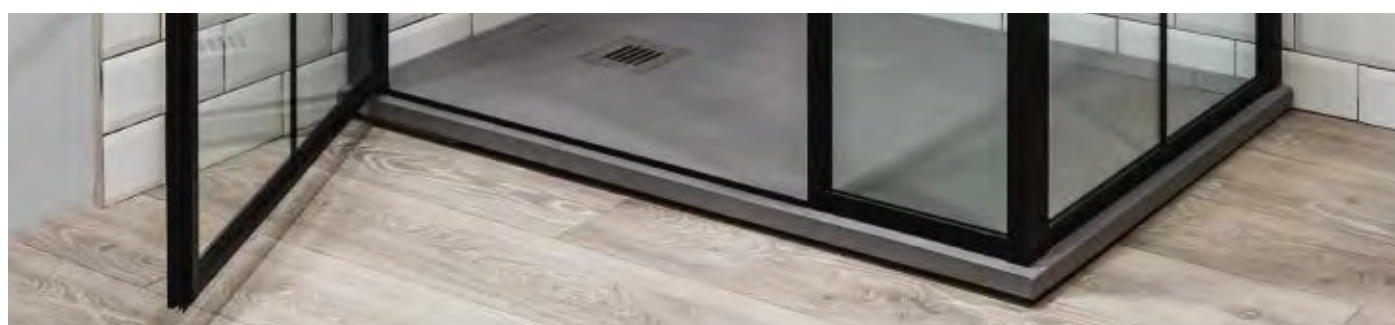

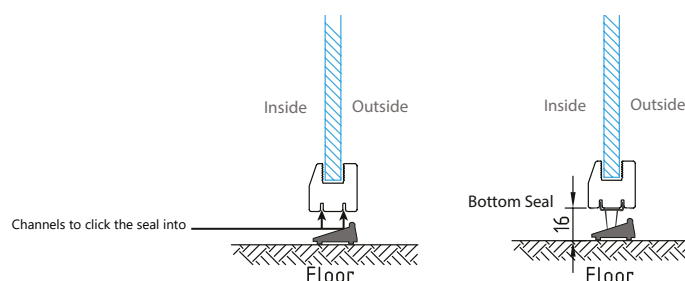

Please email us at sales@drenchshowers.co.uk

Installing DRENCH Seals

Open your door, bath panel or flipper panel fully.

Underneath the bottom profile you should find 2 grooves that go from the closing post to the hinge profile.

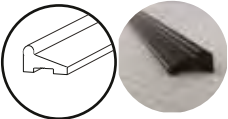

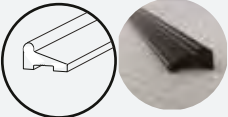

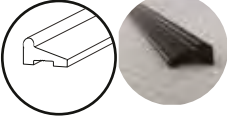

Please click the seal into these grooves and make sure the whole piece is clicked in along the profile.

Threshold bit for Shower Doors

To guarantee a watertight installation DRENCH Shower doors include a threshold bit to be stuck to your shower tray or wet room floor in order to stop the water running out the shower area. Threshold bit is included on all doors but sometimes components get damaged or lost during installation so they can be purchased separately.

Please note threshold is made of aluminium and matches the colour/finishes of your shower door. Please add the two digits code to have your threshold in the right colour/finish.

Item Code	Item Description	Specification	Retail Price MATTE Colours (Exc VAT)	Retail Price Metallic Finishes (Exc VAT)

Accessories & Parts

Extension & Spare Profiles

All DRENCH items will always include the required profiles for installation. These profiles are also available as individual items when dimensions on site are slightly out (extended wall channels) or when panels need to be used together (corner channel).

Please note each item shows an **adjustment range** on this catalogue which is important to take into consideration before ordering. The adjustment range gives a minimum and a maximum point.

Please do not hesitate to contact us if any doubt sales@drenchshowers.co.uk.

Item Code	Description	Specification	Retail Price MATTE Colours (Exc VAT)	Retail Price Metallic Finishes (Exc VAT)

Maintenance & Cleaning

Profiles & Aluminium Frames

The best method of cleaning is using a **mild detergent solution with warm water**. A sponge or soft cloth should be used and nothing should be harsher than natural bristle brushes.

Glass

There is an **Easy Clean coating** to the internal face of the glass only.

Please be advised that on occasions there may be mist to this face. This can be easily removed with a dry, lint free cloth. For daily cleaning we recommend to use a conventional glass cleaner and a squeegee, especially for the internal side.

We recommend regularly wiping your product with a lint free soft cloth.

You may like to use a squeegee to remove water splash.

Should you wish to use a bathroom cleaner, it should be a mild detergent only and ensure it is rinsed thoroughly with clean water.

Never use any solvents, abrasive cleaners or cloths or anything containing bleach.

Warranty Terms & Conditions

WARRANTY TERMS

DRENCH products have warranty against faulty materials or workmanship. Shower Panels, Doors and Enclosures in Metallic Finishes have lifetime warranty. Shower Trays and Shower Panels, Doors and Enclosures in Matte colours or RAL options have 5 years warranty.

- * The benefit of this guarantee cannot be assigned.

3. It is very important that both installation and assembly of DRENCH products are performed by qualified professionals and according to instructions supplied.

All images, specifications and advertising on our website are for the sole purpose of giving an approximate description of the goods. We advise customers to seek technical advice from qualified sources prior to ordering including any installation work that may be required.

PRICES:

All prices featured in this pricelist are Recommended Retail Prices excluding VAT. DRENCH EUROPE LTD does not accept liability for any mistake or calculation error made when drawing up a quotation.

ORDERS:

Orders may be placed via distributor, agent, sales representative or directly submitted to our Commercial Department. A written format may be required when placing an order. DRENCH EUROPE LTD does not accept orders via phone or any other means than email. DRENCH EUROPE LTD reserves the right to refuse any order. Orders are accepted on the basis the Customer has read and accepted these conditions.

CANCELLATIONS & MODIFICATIONS:

No order cancellation or modification will be accepted once the manufacturing process has started. In any event, there is a max period of 24 hours after receipt of order confirmation to ask for any cancellation or modification.

To exercise your right of cancellation within 24 hours you must give written notice by email giving details of goods ordered. Orders can only be cancelled once the Company confirms cancellation to the Customer.

DELIVERY:

Please check all deliveries for damages or discrepancies within 48 hours from receiving the goods. Claims for damaged goods must be notified to DRENCH EUROPE LTD by email stating any damages and/or defects of the goods received from the courier. Claims for damaged goods must be notified to DRENCH EUROPE LTD by email stating any damages and/or defects of the goods received from the courier.

- * The guarantee does not cover any further right than those expressed and it does not cover any claim for consequential loss or damage.
- * This guarantee is offered as an extra benefit and does not affect your statutory right as a consumer in any way whatsoever.
- * In the event of a claim under our guarantee, a site visit is required which will be chargeable. This will be refunded in the event that the product is defective or manufactured incorrectly.
- * In the event that DRENCH products are used for Steam or sauna room installations, it must be specified at the point of ordering. Our products in these environments carry a 2 year warranty.
- * In the event that a replacement product is required and the product is not longer available, DRENCH EUROPE LTD will replace it with the nearest available product.

Unless we have notification within this period, we have no claim against the courier and therefore we will not be liable for any claim made against our company. Please note that all items must be removed from the packaging and checked within the above time scale.

RETURN POLICY:

Should you wish to return any items to us, the return of the goods must be done subject to the following conditions:

1. The return of Goods will only be admitted when it has been accepted and communicated accordingly by the Company.
2. The return of Goods will only be admitted with the condition as new, in the packaging provided and all components supplied initially.
3. Bespoke and made to measure products as well as RAL colours and Glass Options are non returnable.
4. The Goods must not have been installed or attempted to be installed.
5. Customers are responsible for obtaining proof of delivery and receipt of returned goods. It is the Customer responsibility to ensure the goods reach us in good condition.

RETENTION OF TITLE:

1. The goods shall be at the Buyer's risk as from delivery. 1.2 In spite of delivery having been made, property of the Goods shall not pass from the Seller until: 1.2.1 the buyer shall have paid the Price in full; and 1.2.2 no other sums of any kind shall be due from the buyer to the seller.
